- **Programming Languages:** Core Java, Javascript
- **Front-End:** HTML, CSS, JavaScript, ReactJS
- **Tools:** IntelliJ Idea, VS Code, MongoDB, Github, Netlify, Render

Internship

Web Development Dec 2022 - March 2023
DevTown Remote Internship

- Completed Course-cum-internship and acquired Web Development skills under expert guidance, crafting diverse projects like a Zomato landing page, React to-do app, and MERN stack Movie Booking Application.
- Enhanced dynamic web development skills through guidance, improving knowledge in crafting interactive solutions.

Projects

Personal Portfolio Website:

- Crafted a responsive portfolio website using HTML, CSS, and JavaScript. Showcased projects, skills, and achievements with an appealing layout, interactive JavaScript features, and a user-friendly contact form.

Movie Booking

- Collaboratively crafted a dynamic movie booking web app employing MERN Stack (HTML, CSS, JS, React, Node.js, Express, MongoDB) for a seamless user experience. Mentored by DevTown industry experts.

S

Courses

Front-End Web Development

Dave Gray YouTube

- Completed Comprehensive Front-End Web Development course on YouTube by Dave Gray. Proficient in HTML, CSS, JavaScript, and some knowledge on React JS.

Java + DSA

Kunal Kushwaha Youtube (Ongoing)

- Currently Following Kunal Kushwaha's comprehensive Java + DSA course on YouTube. This exceptional course covers Core Java, OOP, and DSA problem-solving, equipping me with valuable skills and knowledge to excel in the field.
